**Kaiser-Hill Director**

**Document Subject:**

TRANSMITTAL OF THE RECONNAISSANCE LEVEL CHARACTERIZATION REPORT FOR THE 886 CLUSTER DECOMMISSIONING PROJECT, REVISION 0 - RF/RMRS-97-124.UN - MCB-076-97

KH-00003NS1A

December 15, 1997

**Discussion and/or Comments:**

Please find 7 copies of the Reconnaissance Level Characterization Report for the 886 Cluster Decommissioning Project, Revision 0 (4 copies for Kaiser-Hill and 3 copies for DOE) and 5 copies of Appendices A, B & C (2 copies for Kaiser-Hill and 3 copies for DOE). This report presents the data summary from the reconnaissance level characterization effort performed in the 886 Cluster November 20 to December 8, 1997. The report is approximately 80 percent complete due to pending results on the PCB and metals samples. The report will be updated to include the data when it is available from the laboratories and to complete the appendices which are the collection of the sampling data and associated reports.

If you have any questions regarding this document, please contact Marla Broussard at extension 6007 or Shaun Garner at extension 6588 of my staff.
